THE SHOW

Four meddling kids and their talking dog solving mysteries in the spooky town of Crystal Cove. The tone is comedic, but it will never lose the edge that our heroes are in some frightening situations. The stakes are real.

For the first time, the gang will be solving mysteries that you actually have to pay attention to. And for the first time the gang is being portrayed as real kids with real problems, such as...

How does Shaggy tell Velma he'd rather hang out with a dog than be romantic with her? Or when will Fred realize that the best trap he ever built is the one that ensnared Daphne's heart.

Add on to that a ***SEASON-LONG MYSTERY*** that will ultimately reveal someone the kids hold near and dear to be a villain worse than any they've ever encountered, and you've got a ***SCOOBY DOO*** show that's been reinvented for a hipper, savvy generation who likes their mysteries like Scooby and Shaggy like their pizza... ***Spicy with extra sauce.***

CHARACTERS/RELATIONSHIPS

Norville "Shaggy" Rogers & Scooby-Doo :

The soul of the team.

Not so much interested in mysteries as they are in eating and watching horror movies. Currently involved in a complicated love triangle with...

Velma Dinkley :

The brains of the team.

Too smart and too aggressive for her own good sometimes. Velma loves mysteries, Shaggy, science, and alternative music, in that order. She is not shy about letting her feelings be known, and can't understand why getting Shaggy to love her is so difficult. For this reason, she often turns to advice from her best friend...

CHARACTERS/RELATIONSHIPS

Daphne Blake :

The heart of the team.

A sweetie with no idea how hot she is. But don't let her looks deceive you, Daphne is not an idiot. In fact, unlike previous incarnations of the show, she does a lot of mystery solving herself. And she loves doing it. Why? Because it brings her closer to Fred. Daphne is eternally devoted to Fred and imagines them spending their entire lives together. Unfortunately for Daphne, there is one thing getting in her way. Fred is already in love... with his traps.

Fred Jones :

The leader of the team.

Fred has two goals in life: to be a great mystery solver, and to be an equally great trap builder. Beyond that, he'd like to spend the rest of his life living in a house with the gang... where they can solve mysteries and build traps. As for his relationship with Daphne, Fred is at the baby steps stage. Somewhere between realizing girls and boys are different, and holding hands. But he's getting there. Slowly.

THE TOWN

Crystal Cove has been a hot spot for all things spooky for over a hundred years. A sleepy coastal village, Crystal Cove boasts a long history of

GHOST SIGHTINGS, DEMON POSSESSION, GLOWING DEEP SEA DIVERS, & WEREWOLVES.

This place is ***seriously haunted***. And because of it, Crystal Cove has become a tourist hotspot, taking in major profits. The Paranormal has been good to this town and the people of Crystal Cove don't appreciate the gang's meddling.

The adults and other kids in the town scurry home after dark and are legitimately scared of the place (despite the tourist money). They never question anything and wholeheartedly believe in the supernatural.
But not Mystery Incorporated. The gang is curious and investigates every circumstance with a questioning mindset. If ghosts and monsters exist, so be it, but extraordinary claims require extraordinary proof and the gang will stop at nothing to learn the truth behind Crystal Cove.
